

Academic Credit Transfer Spring Semester

Each student is required to enroll in **six** Traveling School classes. See the Traveling School Course Outlines for a detailed description of Traveling School academics and course options. The Traveling School is not a four-year diploma granting institution and therefore cannot grant credit for work completed during a semester. Each school district approves Traveling School credit differently, and it is important for the school counselor/registrar and student to understand how this school will approve credits. We recommend the student receive *two semester credits* for Global Studies and Physical Education and *one semester credit* for all other courses from their home high school. In the Notes column, mark whether a course will receive honors credit.

Questions for the counselor and student to consider:

- What required courses, not offered through Traveling School, does the student need to take? Can that course be taken before/after a Traveling School semester or through summer school or online options?
- Are there any additional requirements for a Traveling School course to earn credit? (Ex. Take a final exam or write a paper upon return to receive credit.)
- Call the Traveling School office if questions arise: 406.586.3096

<i>Indicate which six classes you wish to take by circling how credit will transfer.</i>			
<i>Required courses:</i>	Credit Type		Notes:
Global Studies	CORE	ELECTIVE	
Physical Education & Independent Life Skills	CORE	ELECTIVE
